At its heart
ENGINEERING
is about using science to find
CREATIVE
practical solutions. It is a noble profession
Queen Elizabeth II / www.geckoandfly.com

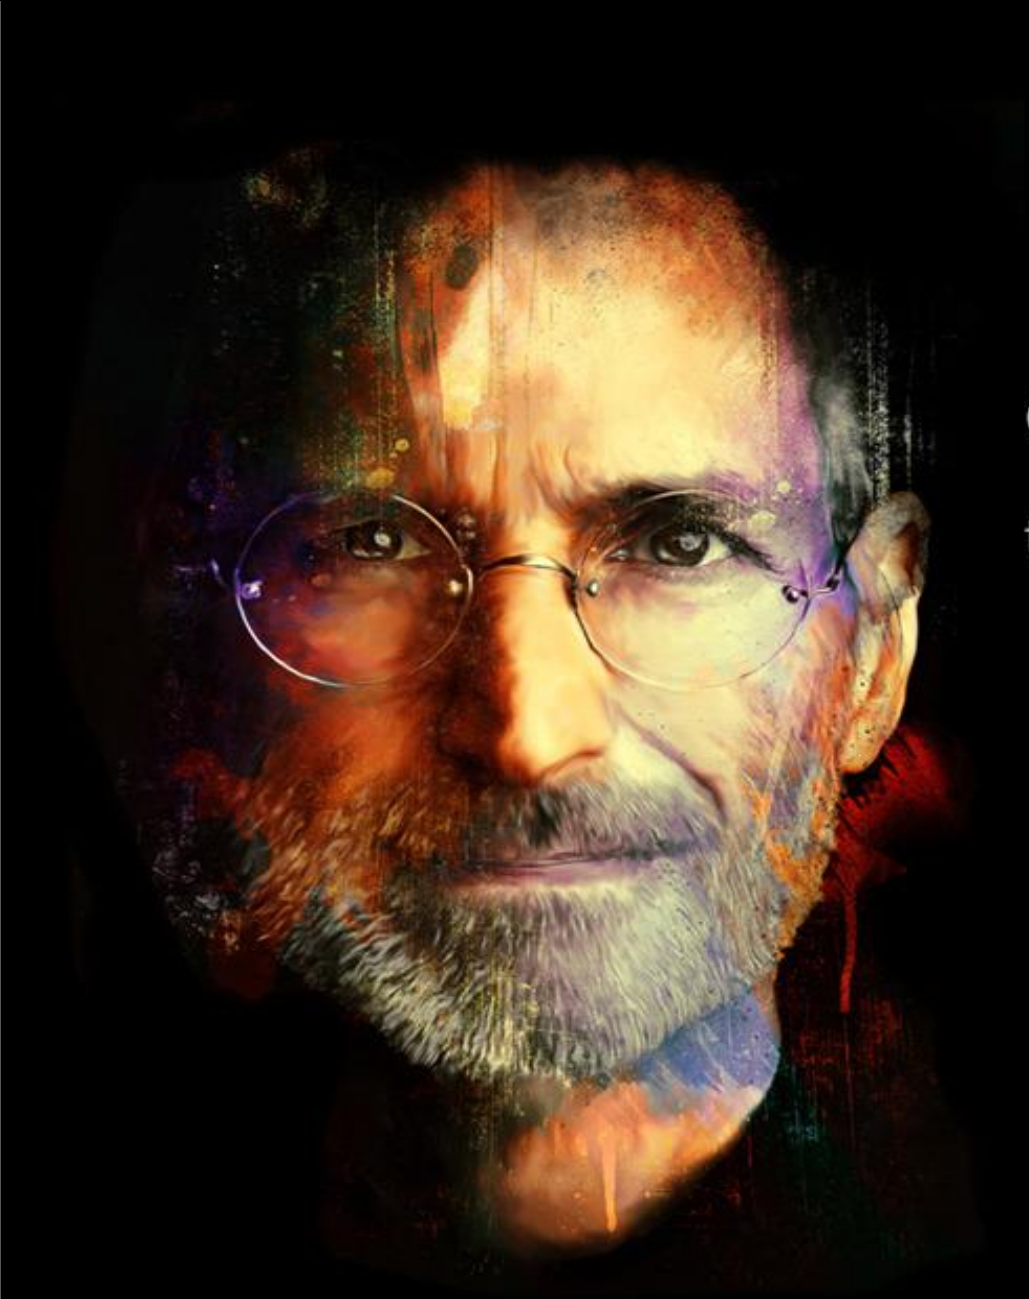
Before we get started u need 2
know who i am right ? ?

Hello **World**..
I'm Vamsi.

#B.Tech 2nd year

@Electronics & Computer Science

wonderfulvamsi@gmail.com



Older people sit down and ask, 'What is it?' but the boy asks, 'What can I do with it?'.

-Steve Jobs.

The Problems List i made..

- **I always wanted to make a Mobile Game using A.R**...but to build it i needed a group of people who can Design, make 3D models, Animate & can write Code.

  People used to laugh at me when tried ask them about building up a team, eventually I needed give up my idea & moved on..

- **I wanted to send my Solutions /Projects to help out some companies** like WhatsApp, Starbucks & Samsung/Sony/Panasonic/LG electronics to be implemented by them in their products. I tried mailing & tweeting them but no use...

- **Most of the People aren't treating Geeks as they deserve to be..**

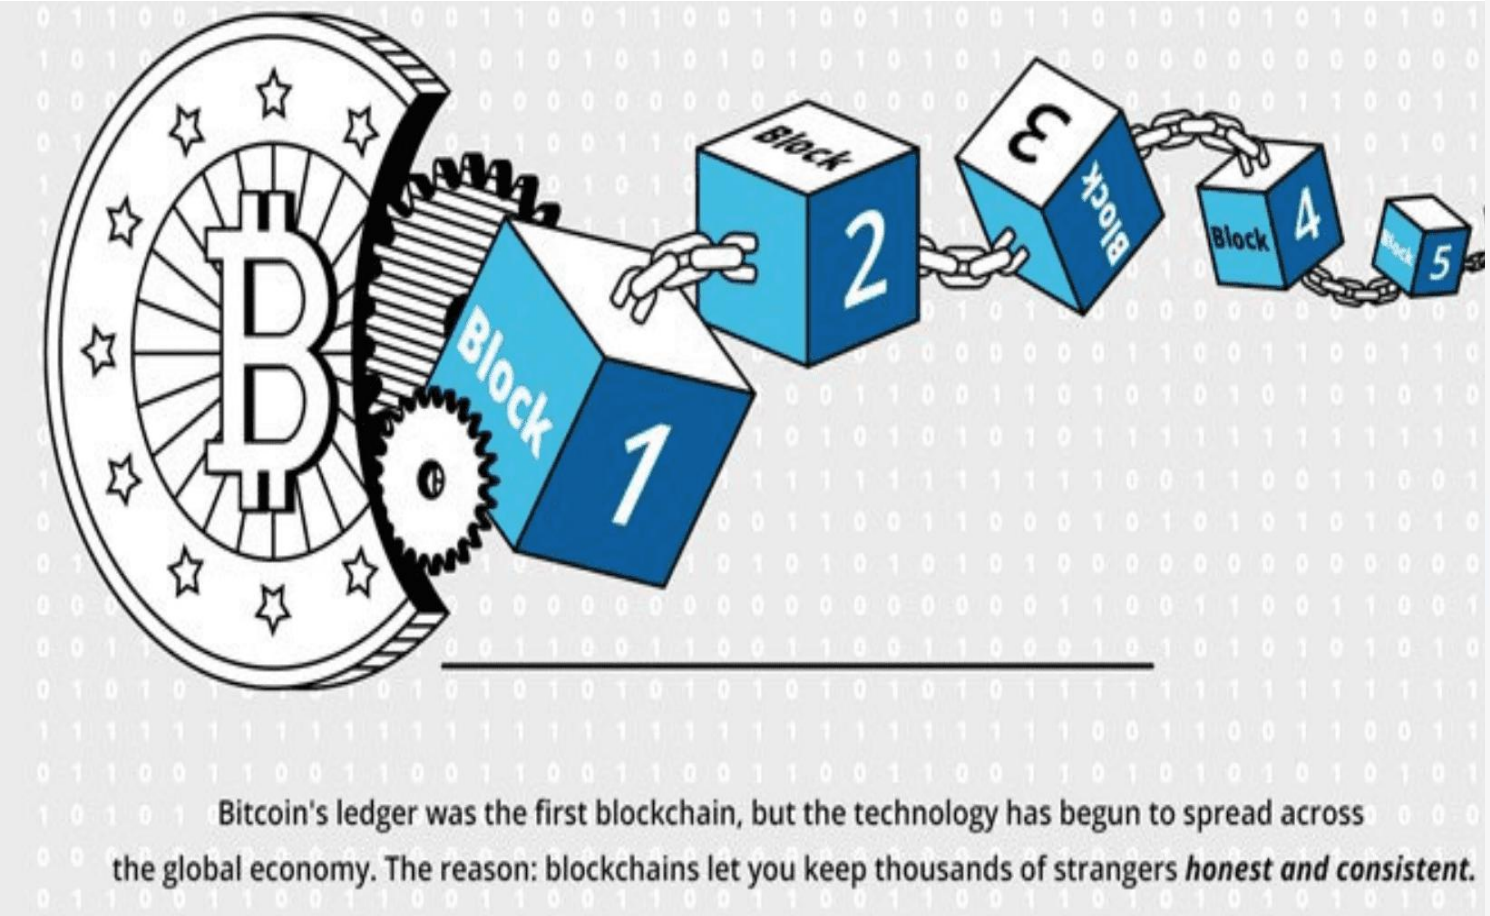
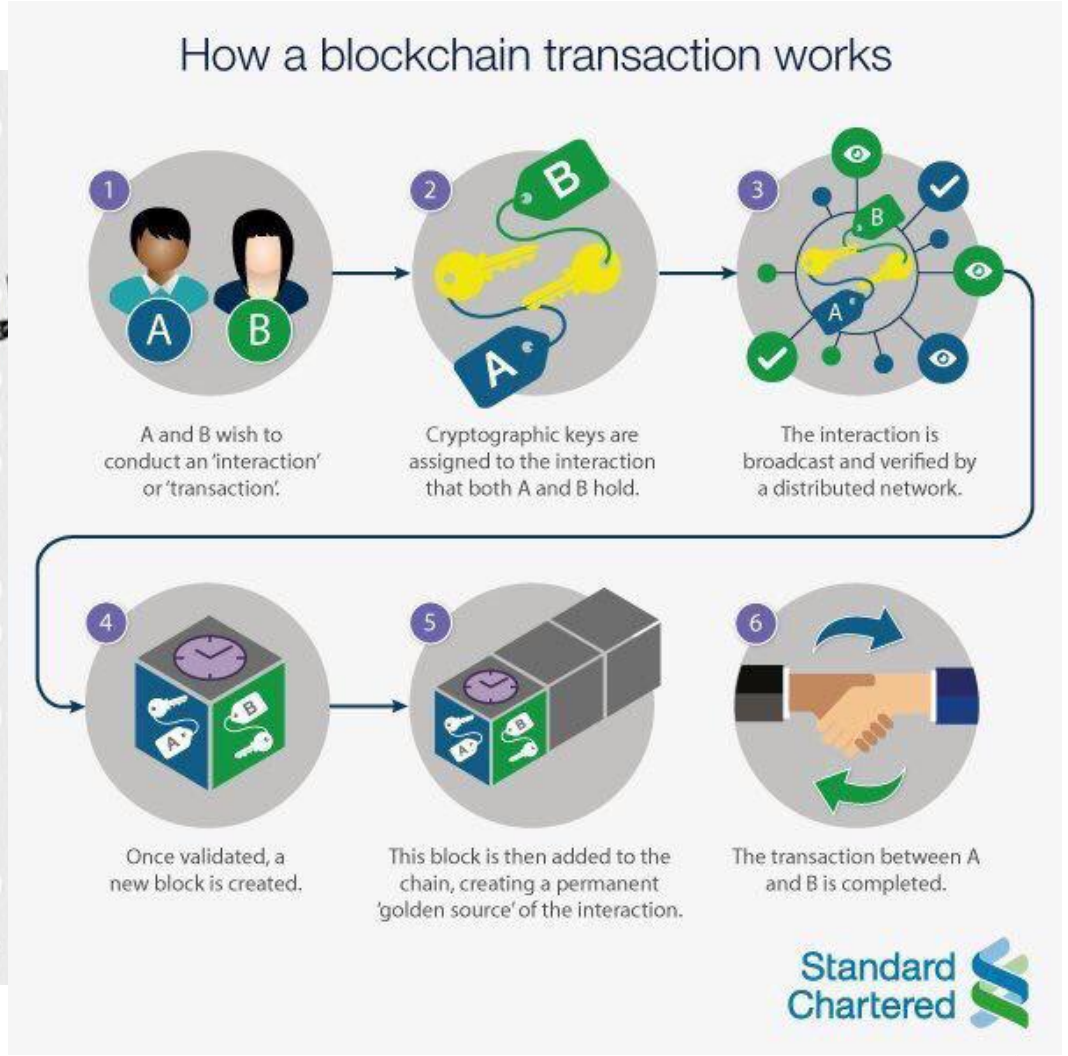
BlockChain



Block 1
Block 2
Block 3
Block 4
Block 5
Bitcoin's ledger was the first blockchain, but the technology has begun to spread across the global economy. The reason: blockchains let you keep thousands of strangers *honest and consistent.*



How a blockchain transaction works
1
A
B
A and B wish to conduct an 'interaction' or 'transaction'.
2
B
A
Cryptographic keys are assigned to the interaction that both A and B hold.
3
B
A
The interaction is broadcast and verified by a distributed network.
4
Once validated, a new block is created.
5
This block is then added to the chain, creating a permanent 'golden source' of the interaction.
6
The transaction between A and B is completed.
Standard Chartered

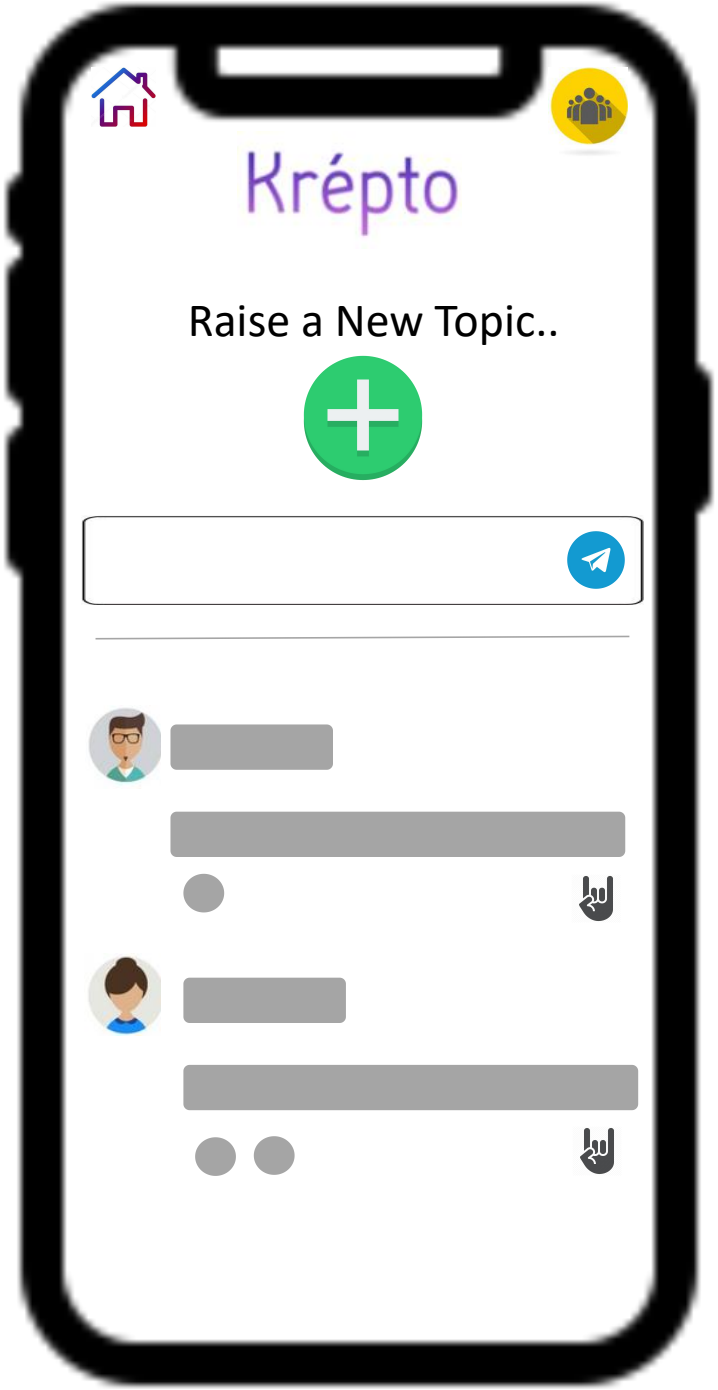
The DAPP will be available for..

Android **IOS** **WEB**

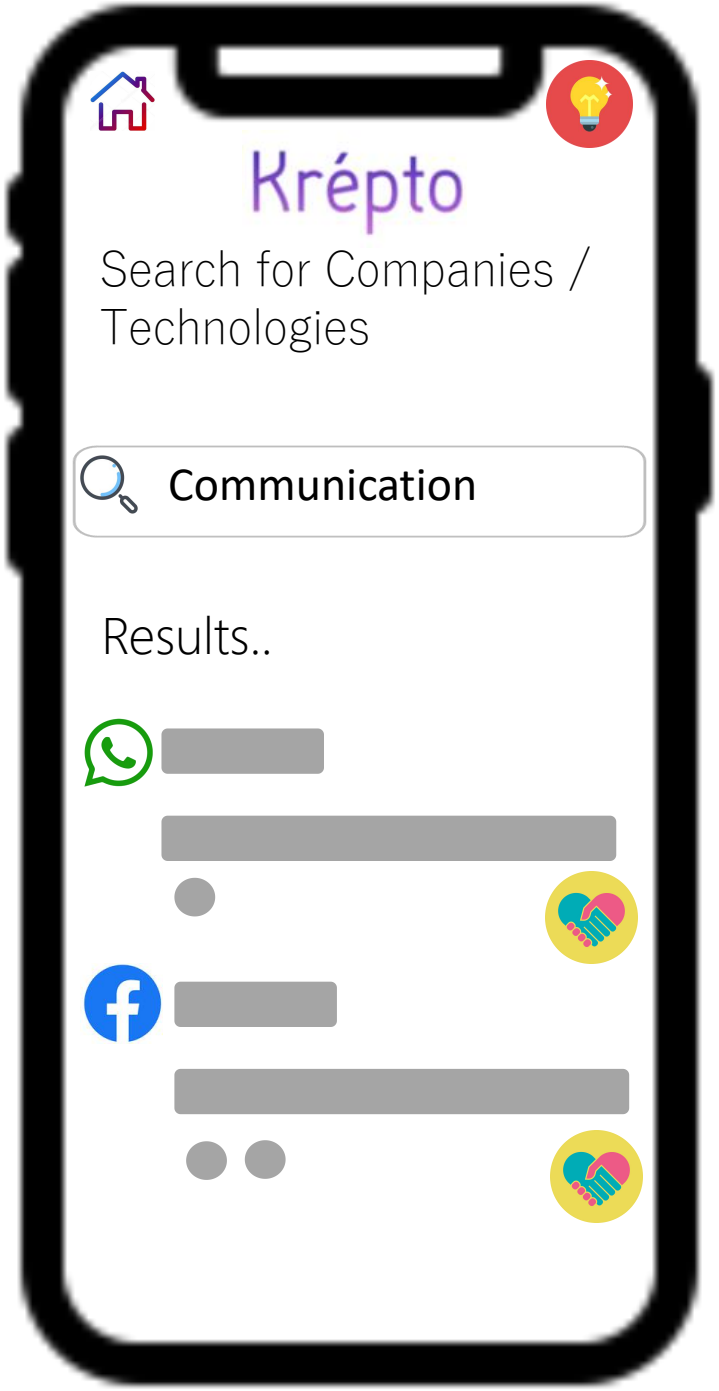
>If u really want to Hack a DApp u need to acess 500 Super Computers at a time..!!

UI

Study-Buddy



Innovation



Krépto
Search for Companies / Technologies
Communication
Results..

Earning an Internship is now easy..!!

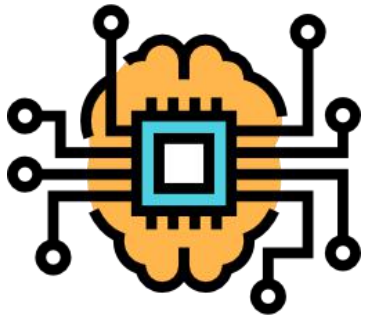
CryptoCurrency

OK fine about BlockChain,but what about CryptoCurrency??

Here CryptoCurrency can be used as a scoreing factor for an individual insted of real currency.Every time a student does a nobel thing,say if he/she tought something related to technology to other students then he/she will be awarded with the cryptocurrency
This allows us to easily identify the dimonds in the mud.
Student with more kreptos can be awarded as "Student Of The Year"
Moreover students with high ammount of Kreptos can be grouped together to do Epic things..!!

More Features:

Skill Level : To acess how profestional a Student in his area of intrest, based on his work & result in the test series made by the Krépton Developers.



Machine Learning models shall be built up for **Recommendations** & for **Censorship of Data** generated by users by effictive use of **Computer Vision & Natural Language Processing** Techniques.

Q feature will be handy incase of any Guest Lectures for asking doubts effectively..
Moreover Q/A setion is more intractive than that of just giving speechs..!!

If (The managment links the internal marks & the Kreptos) :

With proper implimentation of the proposed "Dapp" can definetly change the way thing are been in any college

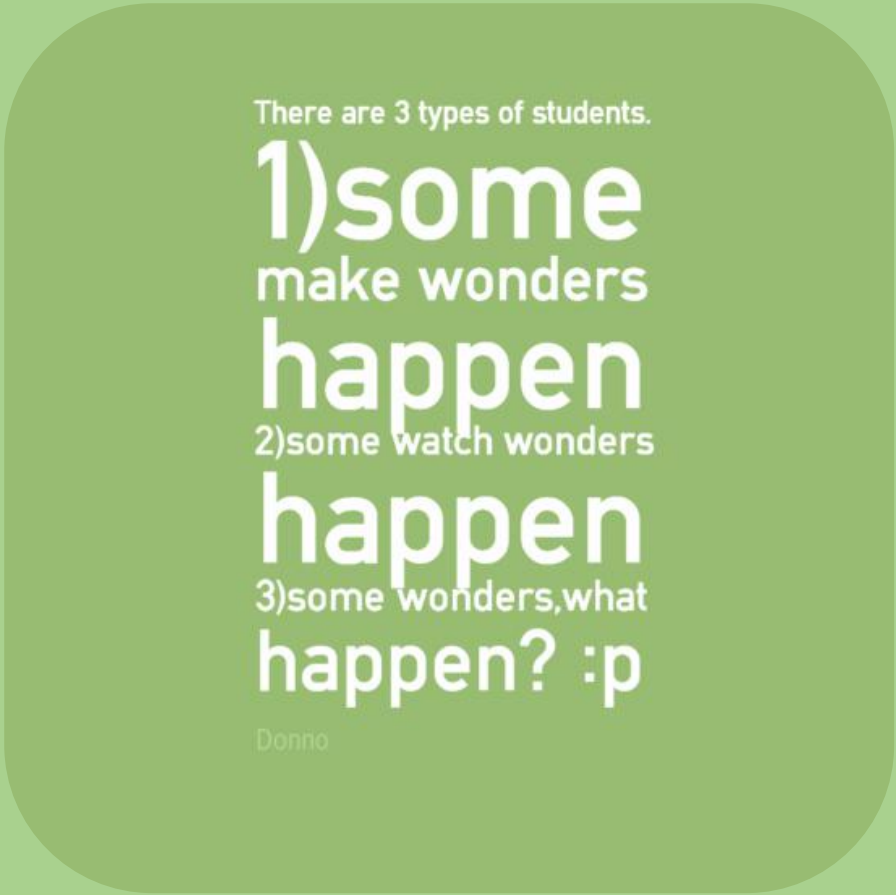
Allowing Students to come up with more innovative ideas..!!!

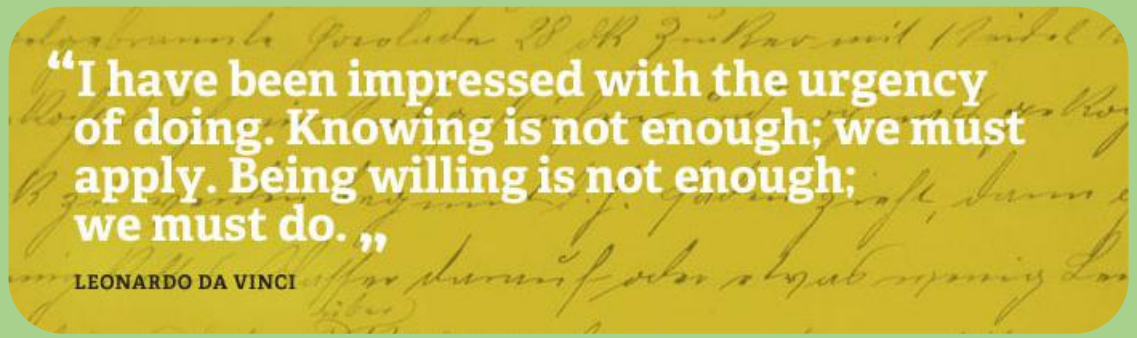
Just think about how our country will be if all the enggineeers actuallly do the Real Engaineering Stuff..!!

Ur Questions..

Do we Need all this..??

Don't u think it's too earlier..??





My Answer

Well,i guess i'm Type 1..

Why am i so confident about this..??
